Educate Household Portal

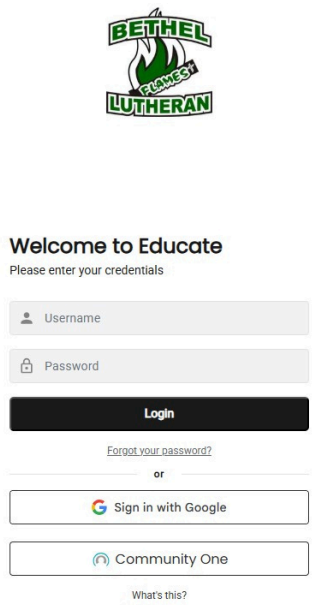
Bethel uses TADS Educate to communicate with our families. Each family has a login to use to view school and student specific information, including school announcements, student attendance, family lunch account balances, report card copies, current grades and assignments (grade 4 and up), and demographic information.

Your Educate Username:

Current Bethel families should have received an email with Educate login information soon after your child started in Bethel's grade school. If you have misplaced this email, please let the office know, and we will be happy to re-send it. All families new to Bethel will receive this email soon after your child starts attending school.

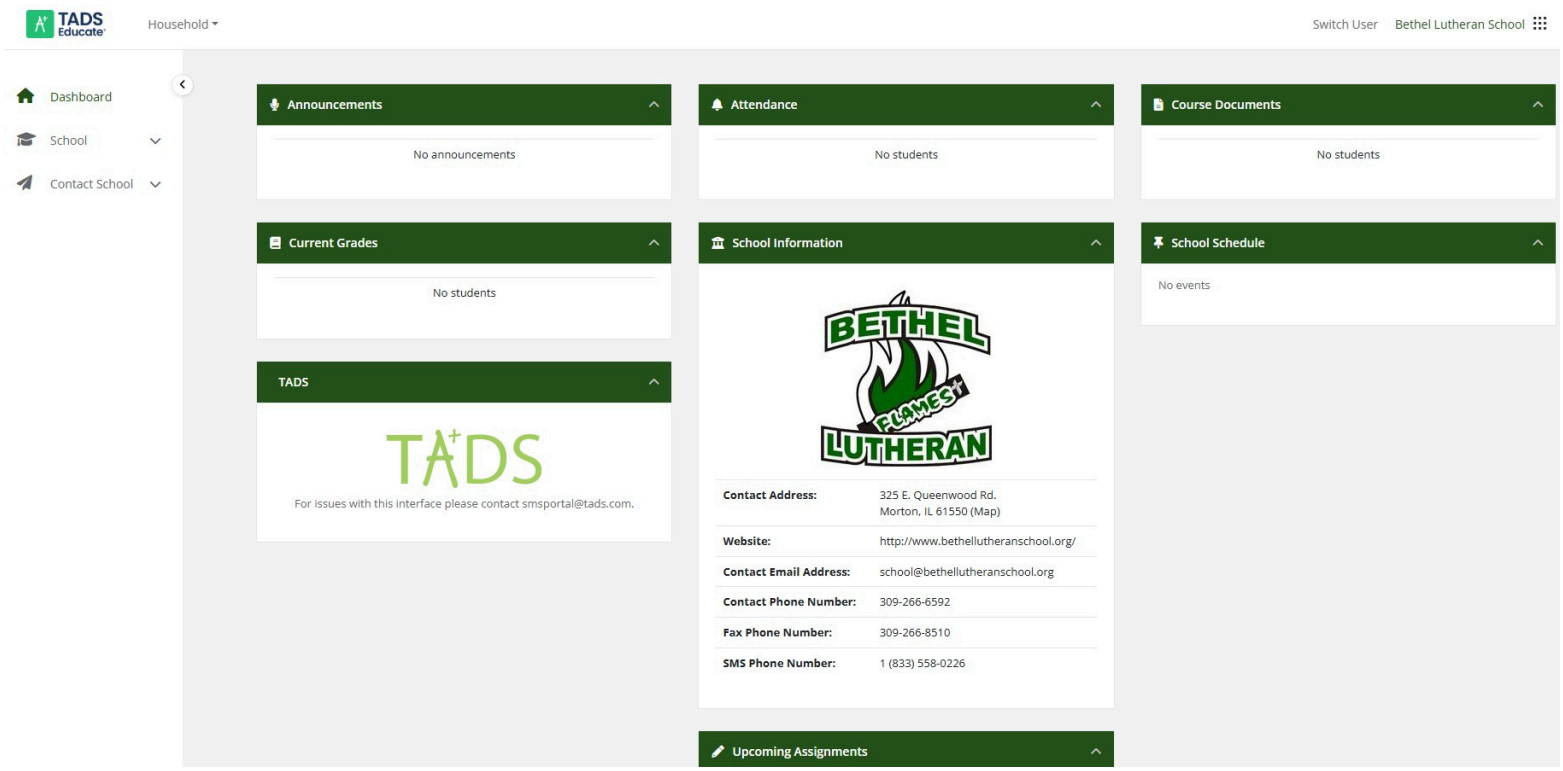
To Access Educate:

Click HERE (https://educate.tads.com) to access the login screen. Once there, sign in with your username and password. If you do not recall your password, click "Forgot your password?" to reset.

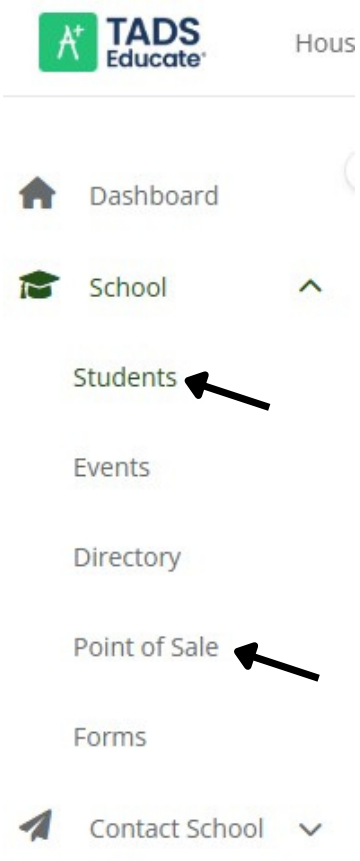


Educate Home Page:

The home page provides a quick overview of school and basic student information right when you log in. You can customize your view by clicking and dragging the sections (widgets) to their desired locations. The home page can always be accessed by clicking the “Home” button at the top of your screen.



Students Page & Point of Sale (Lunch Accounts):

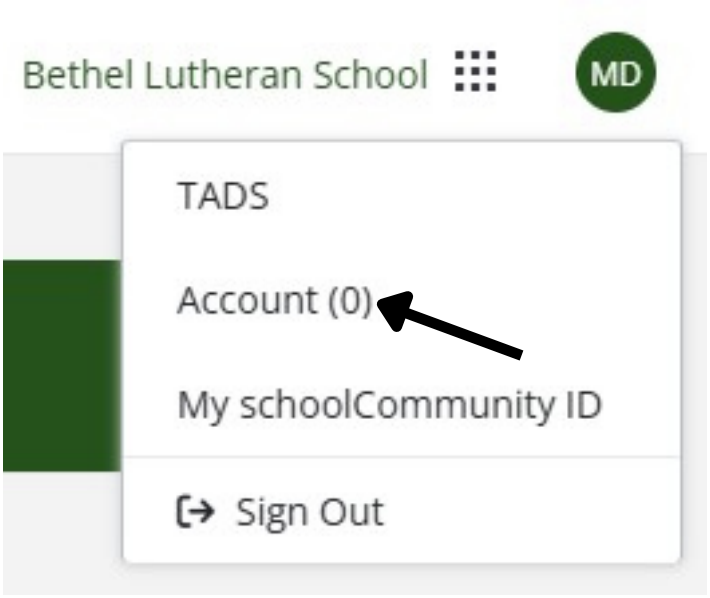


The students page provides additional and more detailed student information than displayed on the home page. To access the students page, click “School” on the left hand side of the screen, and then select “Students” from the dropdown options. Student information is broken into three sections on this page: Academic, Schedule, and Demographic. Click the section you are interested in for further options, such as Academic for assignments, current grades (available for 4th grade & up), or student report cards.

To access your Bethel lunch account, choose “Point of Sale” from the dropdown menu. Here, you may view your family lunch account balance, view charges that have been posted to the account, and add money to your account if you choose to do so with a credit or debit card (Educate processing fees apply).

Accounts Page:

The accounts page displays demographic information for yourself and your household and can be located by clicking your name in the upper right-hand corner of the screen, then selecting “Account” from the dropdown options. If your household contact information has changed, you may edit it right from this screen by clicking the “Edit” button and making necessary updates.



Questions?

Please note that if you are unable to view or edit specific information, it may be because Bethel does not currently have this feature enabled. Contact the school office (309-266-6592 or school@bethellutheranschool.org) with any questions.
